PROPERTY AND PERSONS BOUND BY DECLARATION

2.1 Purpose and Binding Effect.

Landowner is the record owner of fee title to the Property and Declarant is the holder of an option granted by Landowner to purchase the Lots. Landowner and Declarant intend by this Declaration to impose upon the Property covenants, conditions, restrictions and easements to create a general plan of development for the Property and to provide a flexible and reasonable procedure for the administration, maintenance, preservation, use and enjoyment of the Property. Landowner and Declarant declare that all of the Property shall be held, sold, used and conveyed subject to the easements, restrictions, conditions and covenants set forth in this Declaration which are for the purpose of protecting the value, desirability and appearance of the Property. Landowner and Declarant further declare that all of easements, restrictions, conditions and covenants in this Declaration shall run with the Property and shall be binding upon and inure to the benefit of the Declarant and all Owners, Lessees and Residents and all other Persons having or acquiring any right, title or interest in the Property or any part thereof, their heirs, successors, successors in title and assigns. Each Person who acquires any right, title or interest in the Property, or any part thereof, agrees to abide by all of the provisions of the Community Documents. This Declaration shall be binding upon and shall be for the benefit of and enforceable by the Association. Neither Landowner nor Declarant makes any warranties or representations, express or implied, as to the binding effect or enforceability of all or any portion of the Community Documents, or as to the compliance of any of the provisions of the Community Documents with public laws, ordinances and regulations applicable thereto.

2.2 Disclaimer of Implied Covenants.

Nothing contained in this Declaration and nothing which may be represented to a purchaser by real estate brokers or salesmen shall be deemed to create any implied covenants, servitudes or restrictions with respect to the use of any property subject to this Declaration.

2.3 Automatic Transfer of Declarant Rights. If the option to purchase the Lots granted to the Declarant by Landowner is terminated because of a default by the Declarant or the failure of the Declarant to timely exercise the option with respect to all of the Lots, then upon the termination of the option, all rights, privileges and easements of the Declarant under this Declaration shall automatically transfer to Landowner. Notwithstanding the automatic transfer of the rights, privileges and easements of the Declarant under this Declaration to Landowner pursuant to this Section, Declarant shall continue to have the non-exclusive right to exercise the rights and easements granted to the Declarant under Section 5.3.

ARTICLE 3

ARCHITECTURAL CONTROL

3.1 Approval Required.

As used in this Article 3, "Construction" means any devegetation, excavation or grading work or the construction, erection or installation of an Improvement on a Lot, and "Modification" means an addition, alteration, repair, change or other work which in any way alters the exterior appearance of any Improvement located on a Lot. No Construction or Modification shall be made or done without the prior written approval of the Design Review Committee.

Any Owner desiring approval of the Design Review Committee for any Construction or Modification shall submit to the Design Review Committee a written request for approval specifying in detail the nature and extent of the Construction or Modification which the Owner desires to perform. The request for approval must be accompanied by plans or specifications showing the nature, kind, color, shape, height, materials and location of the Improvements and such other information as may be required by the Design Guidelines. Any Owner requesting the approval of the Design Review Committee shall also submit to the Design Review Committee any additional information, plans and specifications which the Design Review Committee may request.

In the event that the Design Review Committee fails to approve or disapprove a complete application for approval within forty-five (45) days after the application, together with any fee payable pursuant to Section 3.6 and all supporting information, plans and specifications requested by the Design Review Committee, have been submitted to the Design Review Committee, approval will not be required and this Section will be deemed to have been complied with by the Owner who requested approval of such plans. The approval by the Design Review Committee of any Construction or Modification shall not be deemed a waiver of the Design Review Committee's right to withhold approval of any similar Construction or Modification subsequently submitted for approval.

3.2 Review of Plans.

In reviewing plans and specifications for any Construction or Modification, the Design Review Committee may consider any and all factors which the Design Review Committee, in its sole and absolute discretion, determines to be relevant including, but not limited to: (a) the harmony of the proposed Improvements with existing Improvements in the Project or with Improvements previously approved by the Design Review Committee but not yet constructed; (b) the location of the proposed Improvements in relation to existing topography, finished grade elevations, roads, Common Area and other structures; (c) the exterior design, finish materials and color of the proposed Improvements; and (d) compliance of the proposed Improvements with this Declaration and the Design Guidelines. The Design Review Committee may disapprove plans and specifications for any Construction or Modification even though the plans and specifications may be in substantial compliance with this Declaration and the Design Guidelines

if the Design Review Committee, in its sole and absolute discretion, determines that the proposed Construction or Modification, or some aspect or portion thereof, is undesirable or unattractive.

Decisions of the Design Review Committee may be based on purely aesthetic considerations. Each Owner acknowledges that determinations as to such matters are purely subjective and opinions may vary as to the desirability and attractiveness of certain Improvements. Each Owner agrees that the decision of the Design Review Committee shall be final on all matters submitted to it pursuant to this Declaration.

The provisions of this Article do not apply to, and approval of the Design Review Committee shall not be required for, any Construction or Modification or any other work made by, or on behalf of, the Declarant. The approval required of the Design Review Committee pursuant to this Article 3 shall be in addition to, and not in lieu of, any approvals or permits which may be required under any federal, state or local law, statute, ordinance, rule or regulation.

The Design Review Committee, by resolution, may exempt certain Construction or Modifications from the application and approval requirements of this Article, provided such Construction or Modifications are undertaken in strict compliance with the requirements of such resolution. No approval shall be required to repaint the exterior of a structure in accordance with the originally approved color scheme or to rebuild in accordance with originally approved plans and specifications. Any Owner may remodel, paint or redecorate the interior of a Residence without approval so long as such activity does not affect the exterior appearance of the Residence.

3.3 Variances.

The Design Review Committee may authorize variances from compliance with any provision of the Design Guidelines in circumstances where the design meets the intent of the provision sought to be varied and where granting of the variance would enhance design innovation and excellence, or when circumstances such as topography, natural obstructions, hardship, or aesthetic or environmental considerations so require, and the Design Review Committee determines, in its sole discretion, that the objective of the particular requirement can still be achieved. No variance shall be effective unless in writing and signed by an authorized representative of the Design Review Committee. No variance may be contrary to this Declaration or estop the Design Review Committee from denying a variance in other circumstances including, without limitation, circumstances similar or identical to circumstances under which the Design Review Committee previously granted a variance. For purpose of this Section, the inability to obtain approval of any governmental agency, issuance of any permit, or the terms of any financing shall not constitute hardships.

3.4 Construction of Improvements.

Upon receipt of approval from the Design Review Committee for any Construction or Modification, the Owner who had requested such approval shall commence the Construction or Modification approved by the Design Review Committee within ninety (90) days after the date the Construction or Modification was approved by the Design Review Committee and shall

diligently pursue such Construction or Modification so that it is completed as soon as reasonably practicable and within such time as may be prescribed by the Design Review Committee. If the Construction or Modification is not commenced within the time period prescribed by this Section, the Design Review Committee's approval of the Construction or Modification may be revoked by the Design Review Committee.

3.5 No Changes Without Approval.

Any Construction or Modification approved by the Design Review Committee must be done or performed in accordance with the plans and specifications approved by the Design Review Committee. No change, deletion or addition to the plans and specifications approved by the Design Review Committee may be made without the prior written approval of the Design Review Committee.

3.6 Review Fee.

The Design Review Committee shall have the right to charge a fee for reviewing requests for approval of any Construction or Modification, which fee shall be payable at the time the application for approval is submitted to the Design Review Committee. The fee charged by the Design Review Committee may include the actual or estimated fees or costs incurred or anticipated to be incurred by the Design Review Committee in consulting with, or having the application reviewed by, architects, engineers or other professionals. The Association may retain architects, engineers or other persons as deemed necessary to review applications or otherwise assist the Design Review Committee.

3.7 New Construction.

All Improvements constructed on Lots shall be of new construction, and no buildings or other structures shall be removed from other locations on to any Lot.

3.8 No Warranty.

The approval by the Design Review Committee of any Construction or Modification shall not be deemed a warranty or representation by the Design Review Committee as to the quality of such Construction or Modification or that such Construction or Modification conforms to any applicable building codes or other federal, state or local law, statute, ordinance, rule or regulation.

3.9 Conditional Approval.

The Design Review Committee may condition its approval of plans and specifications upon the agreement by the Owner submitting such plans and specifications to furnish to the Association a bond or other security acceptable to the Design Review Committee in an amount determined by the Design Review Committee to be reasonably sufficient to: (a) assure the completion of the proposed Improvements or the availability of funds adequate to remedy any nuisance or unsightly conditions occurring as a result of the partial completion of such

Improvement, and (b) repair any damage which might be caused to any Area of Association Responsibility as a result of such work. Provided there is no damage caused to any Area of Association Responsibility by the Owner or its agents or contractors, any such bond shall be released or security shall be fully refundable to the Owner upon the completion of the Improvements in accordance with the plans and specifications approved by the Design Review Committee and the Owner's written request to the Design Review Committee.

3.10 Improvements to Areas of Association Responsibility.

If plans and specifications submitted to the Design Review Committee pertain to an Improvement which is within an Area of Association Responsibility so that the Association is responsible for the maintenance, repair and replacement of such Improvement, the Design Review Committee may condition its approval of the plans and specifications for the proposed Construction or Modification with respect to the Improvement on the execution by the Owner of an agreement in form and substance acceptable to the Design Review Committee and the Board which obligates the Owner to reimburse the Association for the future cost of the repair, maintenance or replacement of such Improvement. Any such agreement shall be Recorded.

3.11 Design Review Committee.

So long as the Declarant owns one or more Lots, the Declarant shall have the sole right to determine the number of members on the Design Review Committee and to appoint and remove the members of the Design Review Committee. At such time as the Declarant no longer owns any Lot, the Board shall determine the number of members on the Design Review Committee, and the members of the Design Review Committee shall be appointed and may be removed by the Board. The Declarant may at any time voluntarily surrender its right to appoint and remove the members of the Design Review Committee, and in that event the Declarant may require, for so long as the Declarant own any Lot, that specified actions of the Design Review Committee, as described in a Recorded instrument executed by the Declarant, be approved by the Declarant before they become effective.

The Design Review Committee may adopt, amend and repeal architectural guidelines, standards and procedures to be used in rendering its decisions. Such guidelines, standards and procedures may include, without limitation, provisions regarding: (a) the size and height of Residences; (b) architectural design, with particular regard to the harmony of the design with the surrounding structures and typography; (c) placement of Residences and other buildings; (d) landscaping design, content and conformance with the character of the Property and permitted and prohibited plants; (e) requirements concerning exterior color schemes, exterior finishes and materials; (f) signage; (g) perimeter and screen wall design and appearance; (h) time periods for commencement and completion of any approved construction or modification; and (i) rules and regulations governing construction activities. Any adoption, amendment or repeal of the Design Guidelines after the Declarant no longer has the right to appoint the Design Review Committee must be approved by the Board.

The Design Review Committee may establish one or more subcommittees consisting of one or more members of the Design Review Committee and may delegate to such subcommittee

or subcommittees the authority and power of the Design Review Committee to approve or disapprove any Construction or Modification within a specified portion of the Project.

ARTICLE 4

USE RESTRICTION

4.1 Residential Use.

All Residences shall be used, improved and devoted exclusively to residential use. No trade or business may be conducted on any Lot or in or from any Residence, except that the Owner, Lessee or other Resident of a Residence may conduct a business activity within the Residence so long as: (a) the existence or operation of the business activity is not apparent or detectable by sight, sound or smell from outside the Residence; (b) the business activity is a legal activity and conforms to all applicable zoning ordinances or requirements for the Project; (c) the business activity does not involve persons coming to the Lot to purchase goods or services or the door-to-door solicitation of Owners, Lessees or Residents in the Project; (d) the use of the Residence for trade or business in no way destroys or is incompatible with the residential character of the Residence or the surrounding neighborhood; (e) the trade or business is conducted only inside the Residence, and does not involve the viewing, purchasing or taking delivery of goods or merchandise at, to, from or in any Residence; (f) the trade or business is conducted by a Resident or Residents of the Residence with no employee working in or from such Residence who is not a Resident thereof; (g) the volume of vehicular or pedestrian traffic or parking generated by such trade or business does not result in congestion or be in excess of what is customary in a residential neighborhood; (h) the trade or business does not utilize flammable liquids or hazardous materials in quantities not customary to a residential use; and (i) the use of the Residence for a trade or business does not violate any other provision of the Community Documents.

The terms "business" and "trade" as used in this Section shall be construed to have ordinary, generally accepted meanings, and shall include, without limitation, any occupation, work or activity undertaken on an ongoing basis which involves the provision of goods or services to persons other than the provider's family and for which the provider receives a fee, compensation or other form of consideration, regardless of whether: (a) such activity is engaged in full or part time; (b) such activity is intended or does generate a profit; or (c) a license is required for such activity. The leasing of a Residence by the Owner thereof shall not be considered a trade or business within the meaning of this Section.

4.2 Temporary Occupancy and Temporary Buildings.

No trailer, basement of any incomplete building, tent, shack, garage or barn, and no temporary buildings or structures of any kind, shall be used at any time for a residence, either temporary or permanent. Temporary buildings, trailers or other structures used during the construction of Improvements approved by the Design Review Committee shall be removed immediately after the completion of construction, and in no event shall any such buildings,

trailers or other structures be maintained or kept on any property for a period in excess of twelve months without the prior written approval of the Design Review Committee.

4.3 Nuisances; Construction Activities.

No rubbish or debris of any kind shall be placed or permitted to accumulate on any Lot or other property, and no odors or loud noises shall be permitted to arise or emit therefrom, so as to render any such property or any portion thereof, or activity thereon, unsanitary, unsightly, offensive or detrimental to any other property in the vicinity thereof or to the Residents of such other property. No condition shall be permitted to exist or operate upon any Lot or other property so as to be offensive or detrimental to any other property in the vicinity thereof or to its Residents. Normal construction activities and parking in connection with the building of Improvements on a Lot shall not be considered a nuisance or otherwise prohibited by this Declaration, but Lots shall be kept in a neat and tidy condition during construction periods, trash and debris shall not be permitted to accumulate, and supplies of brick, block, lumber and other building materials will be piled only in such areas as may be approved in writing by the Design Review Committee. In addition, any construction equipment and building materials stored or kept on any Lot during the construction of Improvements may be kept only in areas approved in writing by the Design Review Committee, which may also require screening of the storage areas. The provisions of this Section shall not apply to construction activities of the Declarant.

4.4 Diseases and Insects.

No Person shall permit any thing or condition to exist upon any Lot which shall induce, breed or harbor infectious plant diseases or noxious insects.

4.5 Antennas.

To the extent permitted by applicable law, the installation of antennas, satellite dishes or other devices for the transmission or reception of television or radio signals or any other form of electromagnetic radiation shall be subject to the prior written approval of the Design Review Committee. Therefore, no antenna, satellite or microwave dish or other device for transmission or reception of television or radio signals shall be constructed, installed, erected, used or maintained on any Lot without the prior written approval of the Design Review Committee unless applicable law prohibits the Design Review Committee from requiring such approval. Even if applicable law prohibits the Design Review Committee from requiring prior approval for the installation of certain antennas, any such antennas must still be installed in accordance with the Design Guidelines.

4.6 Mineral Exploration.

No Lot shall be used in any manner to explore for or to remove any water, oil or other hydrocarbons, minerals of any kind, gravel, gas, earth or any earth substance of any kind.

No Motor Vehicle of any kind may be stored on a Lot except in a garage, and no Motor Vehicle of any kind may be stored on the Common Area. For purposes of illustration but not of limitation, a Motor Vehicle shall be deemed stored if it is covered by a car cover, tarp or other material. Motor Vehicles owned by guests of an Owner, Lessee or other Resident may be parked in the driveway on a Lot or on the Streets or in designated parking spaces on the Common Area.

Recreational vehicles, motor homes and similar vehicles owned or leased by an Owner, Lessee or Resident may be parked in the driveway on a Lot for the purpose of loading or unloading, subject to such limitations as may be established by the Board.

No Motor Vehicle shall be constructed, reconstructed or repaired on any Lot in such a manner as to be Visible From Neighboring Property, and no inoperable Motor Vehicle may be stored or parked on any Lot in such a manner as to be Visible From Neighboring Property. Except for emergency repairs, no Motor Vehicle shall be constructed, reconstructed or repaired on the Streets or any other part of the Common Area. No inoperable Motor Vehicle may be stored or parked on the Streets or any other part of the Common Area.

The Board shall have the right and power to adopt rules and regulations governing and further restricting the parking of Motor Vehicles on Lots or the Streets and implementing the provisions of this Section. Every Owner and Resident and their guests shall have a right and easement of enjoyment in and to the Common Area, which right shall be appurtenant to and shall pass with the title to every Lot, subject to:

(a) The right of the Association to dedicate, convey, transfer, lease or encumber the Common Area as provided in Section 6.10; provided, however, that if access to a Lot is over any part of the Common Area, any conveyance, lease or encumbrance of such Common Area shall be subject to an easement for ingress and egress in favor of the Owner and Residents of the Lot and their guests and invitees.

(b) The right of the Board to adopt rules, regulations or policies regulating the use of the Common Area including rules, regulations and policies limiting the number of guests who may use the Common Area and restricting or prohibiting access to such portions of the Common Area (such as landscaped areas) not intended for use by the Owners, Lessees or Residents.

(c) The right of the Association to suspend the right of an Owner and such Owner's family, tenants and guests to use the Common Area (other than the right of an Owner and such Owner's family, tenants and guests to use any streets which are part of the Common Area for ingress or egress to the Owner's Lot) if such Owner is more than fifteen (15) days delinquent in the payment of Assessments or other amounts due to the Association or if the

shall restore the surface of the land and the surrounding vegetation and improvements to their original condition as soon as possible.

The Declarant hereby reserve the right to grant and reserve easements, rights-of-way and licenses over and through the Common Area for the purposes set forth in this Section or for any other purpose necessary or desirable for the orderly development of the Property. If the Person installing the utility or providing a service requests a specific easement by separate recordable documents, then the Declarant or the Association shall have the power to record a document locating such easements.

5.3 Easements to Facilitate Development.

The Declarant hereby reserves to itself and its successors and assigns a non-exclusive blanket easement over and through the Property for all purposes reasonably related to the development and completion of Improvements on the Property, including without limitation: (a) temporary construction easements; (b) easements for the temporary storage of supplies of building materials and equipment necessary to complete Improvements; and (c) easements for the construction, installation and Maintenance of Improvements on the Property or Improvements reasonably necessary to serve the Property.

The Declarant hereby reserves to itself, its successors and assigns the right to: (a) use any Lots owned or leased by the Declarant, any other Lot with written consent of the Owner thereof or any portion of the Common Area as models, management offices, sales offices, a visitors' center, construction offices, customer service offices or sales office parking areas; and (b) install and maintain on the Common Area, any Lot owned or leased by the Declarant or any other Lot with the consent of the Owner thereof, such marketing, promotional or other signs which the Declarant deems necessary for the development, sale or lease of the Property.

5.4 Dedications and Easements Required by Governmental Authority.

The Declarant hereby reserves to itself and its successors and assigns, the right to make any dedications and to grant any easements, rights-of-way and licenses required by any government or governmental agency over and through all or any portion of the Common Area.

5.5 Further Assurances.

Any and all conveyances made to the Association or any Owner shall be conclusively deemed to incorporate these reservations of rights and easements, whether or not set forth in such grants. The easements granted and reservations made to the Declarant in this Declaration shall not terminate or merge and shall continue to run with the land, notwithstanding the common law doctrine of merger and the common ownership of all the Property by the Declarant. Upon written request of the Declarant, the Association and each Owner shall from time to time sign, acknowledge and deliver to the Declarant such further assurances of these reservations of rights and easements as may be requested.

5.6 Duration of Development Rights; Assignment.

The rights and easements reserved by or granted to the Declarant pursuant to this Article 5 shall continue so long as the Declarant owns one or more Lots or holds an option to purchase one or more Lots. The Declarant may make limited temporary assignments of its easement rights under this Declaration to any Person performing construction, installation or Maintenance on any portion of the Property.

5.7 Association Powers and Rights.

The Association's exercise of the rights, powers and easements granted in this Article 5 are not subject to the time limitations on duration applicable to the Declarant. If the Declarant or any Owner requests the Association to exercise its powers under this Section, the Association's cooperation shall not be unreasonably withheld, conditioned or delayed.

5.8 Easement for Maintenance and Enforcement.

The Association and its directors, officers, agents, contractors and employees, the Design Review Committee and any other Persons authorized by the Board are hereby granted the right of access over and through any Lots (excluding the interior of any Residence), for: (a) the exercise and discharge of their respective powers and responsibilities under the Community Documents; (b) making inspections in order to verify that all Improvements on the Lot have been constructed in accordance with the plans and specifications for such Improvements approved by the Design Review Committee and that all Improvements are being properly maintained as required by the Community Documents; (c) correcting any condition originating in a Lot or in the Common Area threatening another Lot or the Common Area; (d) performing installations or Maintenance of utilities, landscaping or other Improvements located on the Lots for which the Association is responsible for Maintenance; or (e) correcting any condition which violates the Community Documents.

If any Improvements on any Lot or portion of the Common Area now or hereafter encroach on any other portion of the Property by reason of: (a) the original construction thereof; (b) deviations within normal construction tolerances in the Maintenance of any Improvement; or (c) the settling or shifting of any land or Improvement, an easement is hereby granted to the extent of any such encroachment for the period of time the encroachment exists. The Owner of the encroaching Improvement shall also have an easement for the limited purpose of Maintenance of the encroaching Improvement. This easement does not relieve any Owner or any other Person from liability for such Owner's or other Person's negligence or willful misconduct.
